Springboard. The Guaranteed
Educational Software

Now there is a brand of educational software that's so good it's guaranteed.

Springboard Software™ has made the commitment to develop learning games which challenge and stretch children's abilities and imagination.

Superior graphics and ingenious program materials provide hours upon hours of enjoyment. But that's not all. Springboard games are created by teams of educators and computer specialists collaborating to build solid educational value into each game.

That's why Springboard games carry a money-back guarantee. If, within 30 days after purchasing one of our games, you decide that it's not helping build the skills described, we'll give you a full refund.

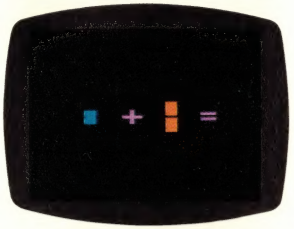
We design each one of our games with this double benefit in mind – enjoyment, and educational value. We have complete confidence in our games. That's why we call Springboard "The Guaranteed Educational Software."

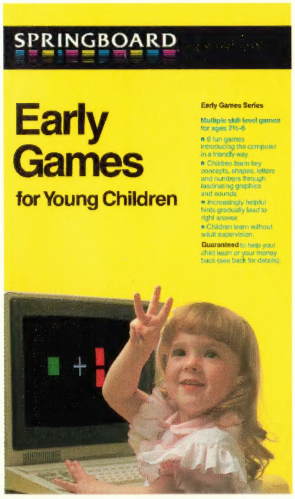
The Springboard Collection of multiple skill level games is grouped into four series:
■ Early Games, ■ Skill Builders,
■ Creative Paths and the
■ Family Series.

Early Games for Young Children™

Multiple skill level games
Ages 2½-6

Early Games for Young Children is a collection of nine individual learning games that teach your child a variety of basic skills and are a fun introduction to computer learning. They help your child learn shapes and letters, how to add and subtract numbers, draw creatively, type with the computer, say the alphabet and spell their own names. The picture menu makes it easy for children to select and play games by themselves, so no adult supervision is necessary.

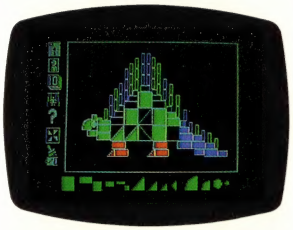


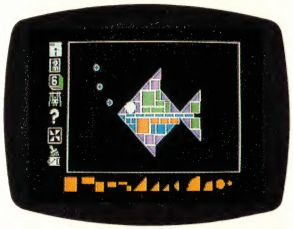


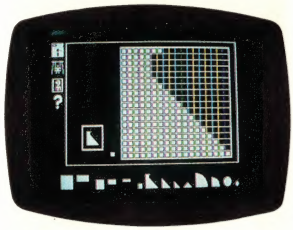
SPRINGBOARD
Early Games
for Young Children
Early Games Series
Multiple skill level games for ages 2½-6
• 9 fun games introducing the computer in a friendly way
• Children learn key concepts, shapes, letters and numbers through fascinating graphics and sounds
• Increasingly helpful hints gradually lead to right answer
• Children learn without adult supervision
Guaranteed to help your child learn or your money back (see back for details)

Stickers™
Multiple skill level games
Ages 4-12

Stickers encourages your child's creativity while improving problem-solving skills. There are 100 sticker pictures in ten different fun catagories. Children learn to distinguish and use many shapes, combining them to create a sticker picture. They select a sticker, color it, rotate it, position it and drop it into a matching shape in an imaginative sticker picture. In the Sticker Playground, children are encouraged to create an infinite variety of their own stickers with the Sticker Maker.







Easy as ABC™
Multiple skill level games
Ages 3-6

Easy as ABC is a series of five games that introduce the alphabet in a variety of fun and engaging ways. Children learn letter recognition, alphabetical sequence and upper and lower case.

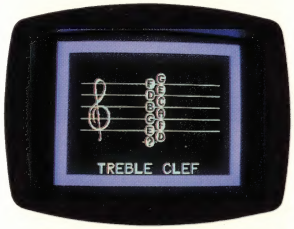
A Picture Menu makes it easy for children to select from Match Letters, Dot to Dot, Leapfrog, Lunar Letters or Honey Hunt.

A diskful of colorful animated graphics such as jumping frogs and buzzing bees keep children fascinated. And the more they play, the more they learn.

SPRINGBOARD
Easy as ABC
Early Games Series
Multiple skill level games for ages 3-6
• 5 fun and challenging games introduce the alphabet.
• Children learn letter recognition, alphabetical sequence and upper and lower case.
• Self-computing, easy to play – no adult supervision necessary.
Guaranteed to help your child learn or your money back (see back for details).
WALRUS

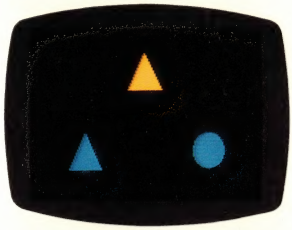
Music Maestro™
Multiple skill level games
Ages 4-10

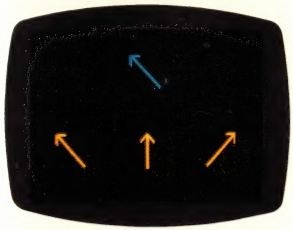
Music Maestro has four games that encourage children to develop their musical talents. They are introduced to the names of notes and keys on the piano. They can learn to perform their favorite songs by playing "Simon Says" and can combine their melodies with colorful graphics to create a musical "Kaleidoscore." Music Maestro allows children a variety of fun ways to create, record and play back their own tunes and melodies.

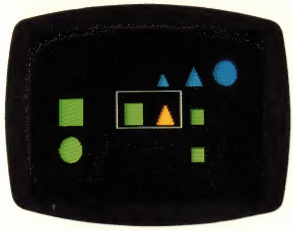


Make a Match™
Multiple skill level games
Ages 2½-6

Make a Match provides four fun and imaginative multiple-level games to help children develop essential reading-readiness skills. When children play these games, they learn to match and classify objects by shape, color and orientation, an important part of reading readiness. The picture menu and computer play are designed to enable children to play independently. All a child has to do to choose a game is press any key when the desired game appears on the screen. All games are self-correcting: sounds and graphics help children understand why their responses are right or wrong. Suggestions are included in the Make a Match booklet to help you extend your child's learning both on and off the computer.

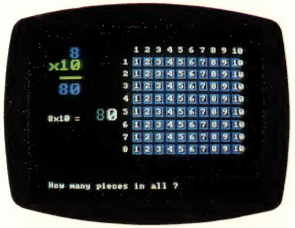


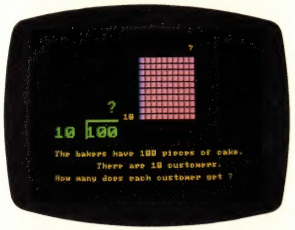


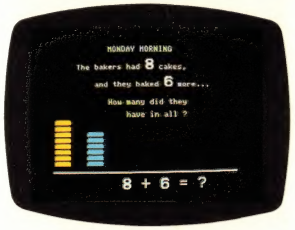


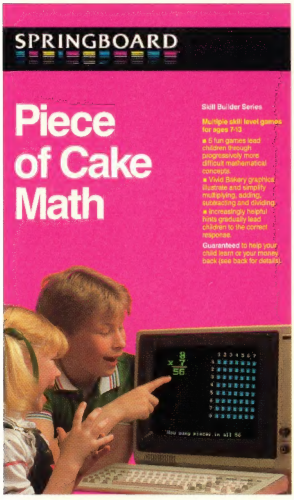
Piece of Cake Math™
Multiple skill level games
Ages 7-13

The five Piece of Cake Math games help children learn progressively-more-difficult math concepts quickly and easily. The magical Bakery provides a fun way for children to learn to add, subtract, multiply and divide by counting the tasty cakes as they come out of the oven and are sold to the customers. Children can sharpen and refine their skills by playing Catch-a-Cake, a challenging multiple-skill level game. If they have trouble, the bakers explain how to get the answers. After all, math is a piece of cake!



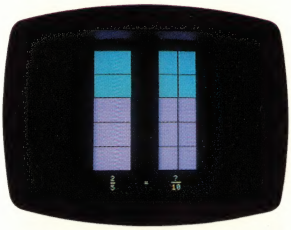


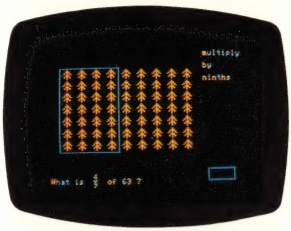


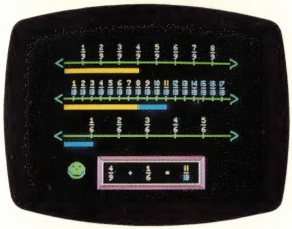


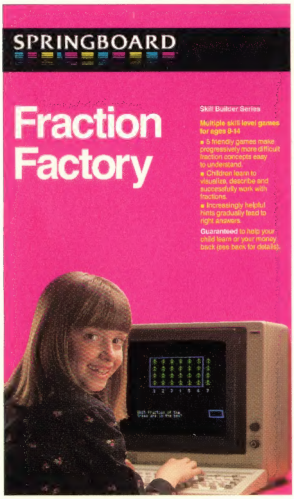
Fraction Factory™
Multiple skill level games
Ages 8-14

Fraction Factory makes learning fractions easy and fun. Children learn to describe fractions, find equal values with different denominators, multiply whole numbers by a fraction, add fractions to fractions, and subtract fractions from fractions. Colorful graphics and musical sounds help children understand what the numbers mean. If your child has difficulty, increasingly-more-helpful hints will appear until your child understands the concept and calculates the correct answer.



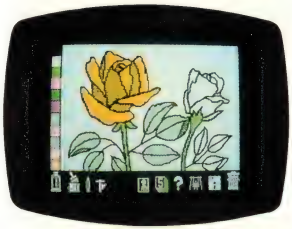






Rainbow Painter™
Multiple skill level games
Ages 4-10

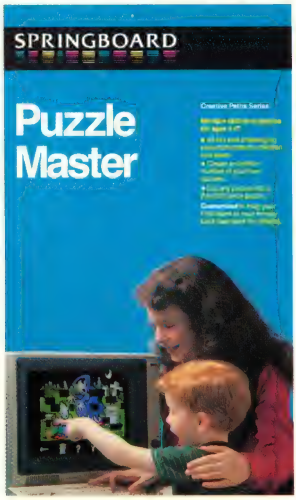
Rainbow Painter lets children choose from a color picture menu that offers ten categories of fun line drawings or they can create their own pictures in a variety of styles. Fifty different brushes and thousands of color patterns offer an almost infinite variety of creative possibilities for children to choose from. Children develop fine motor skills while having fun creating, drawing and painting. Your child will be entertained and challenged for hours by Rainbow Painter.



Puzzle Master™

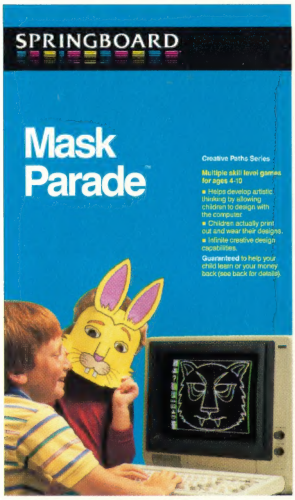
Multiple skill level games
Ages 4 and up

Puzzle Master lets children and puzzle lovers choose from an assortment of existing pictures or they can create their own by using powerful artistic drawing tools. Each picture can then be divided into a puzzle cut into 2 to 800 pieces. Puzzles can be made as easy or difficult as desired. Puzzle lovers will enjoy fully challenging their skills while children can progressively develop creativity and problem-solving ability by designing and reconstructing less difficult puzzles.



Mask Parade™
Multiple skill level games
Ages 4-12

Mask Parade is an exceptionally unique program that allows children to use the computer to design their own masks, hats, glasses, jewelry, badges, accessories (and more) and then actually print them out and wear them. They just combine any of the many fun elements provided by the computer, or create their own designs. Once the design is printed out, it can be colored, cut out and worn for hours of creative fun.



SPRINGBOARD
Mask Parade
Creative Paths Series
Multiple skill level games for ages 4-10
Helps develop artistic (hands) by allowing children to design with the computer
Children actually print out and wear their designs.
Infinite creative design capabilities.
Guaranteed to help your child learn or your money back (see back for details)

Icons make it easy and fast to change faces and costumes at the press of a key on the computer keyboard.

Quizagon™

The ultimate trivia game for teens and adults

Quizagon challenges your mind. More than 6,000 questions will explore and expand the limits of what you know. Using your knowledge and strategy, you will maneuver through the hexagons as you successfully answer questions on science and geography, sports and games, arts and entertainment, and potpourri. The ultimate question, the "Grand Quizard," will win this challenging new kind of computer game. Two full diskettes include randomly-selected questions so that you may play dozens of times and never repeat a question. Because you can play with as many as four players or teams, Quizagon is an exciting party game. Quizagon is the first fun and challenging game in the Family Series.
